| Product ID | 2CCS891001R0845 |
| Extended Product Type | \$801N-B125 |

Catalog Description

S801N-B125 High Performance MCB

Long Description

The S801N-B125 is a 1-pole High Performance Circuit breaker with B-characteristic, with cage terminal and a rated current of 125 A. It is a current limiting device with a maximum breaking capacity of 36kA at 240/415V. It can be used for voltages up to 400/690V and in DC as well. It has two different tripping mechanisms, the thermal tripping mechanism for overload protection and the electromechanic tripping mechanism for short circuit protection. The S801N-B125 complies with IEC/EN 60947-2 and allows the use for industrial applications. It has numerous of approvals, therefore it can be used worldwide. The extensive range of accessory makes the use of S801N-B125 more comfortable. Due to the fast arc extinction of S801N-B125 your application will be secured.
