

USB A male to Lightning cord

Cat. No(s): 0 398 62, 0 909 87

1. USE

Use with Apple® iPad®, iPhone® or iPod® devices equipped with Lightning connector to sync and charge

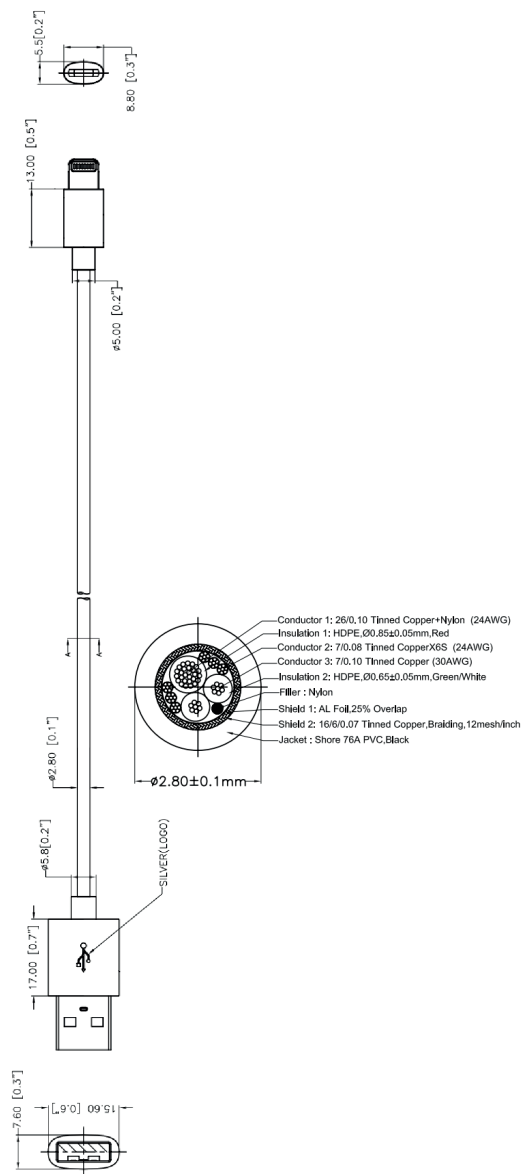

2. DESCRIPTION

The USB A Male to Lightning Male sync and charging cable is perfect for downloading data from or uploading data to the compatible generation of Apple iPad, iPhone or iPod devices while also allowing the device to be charged. The cable construction and design make it ideal for travel. This cable is great as a replacement or a spare to sync and charge an Apple device at home, in the office or on the go. This cable is MFi certified for compatibility with Apple products.

3. FEATURES

- Sync and charging cord
- MFi Certified
- Compatible with Apple® iPad®, iPhone® or iPod® devices equipped with Lightning connector
- Lifetime Warranty

4. DIMENSIONS

Cat. Nos	Length (m)
0 398 62, 0 909 87	1

5. ELECTRICAL CHARACTERISTICS

Nominal Impedance with Tolerance	100Ω
Nominal Capacitance	95.2 pF/m
Insulation Resistance	10MΩ

6. PHYSICAL CHARACTERISTICS

Conductor 1	26/0.1 Tinned Copper+Nylon (24AWG)
Insulation	HDPE, ϕ 0.85 \pm 0.05mm, Red
Conductor 2	7/0.08 Tinned Copper x6S (24AWG)
Conductor 3	7/0.10 Tinned Copper (30AWG)
Insulation	HDPE, ϕ 0.65 \pm 0.05mm, Green/White
Shield 1	AL Foil, 25% Overlap
Shield 2	16/6/0.07 Tinned copper, Braiding, 8 meshes/inch
	Coverage : 81%
Jacket	Shore 76A PVC
OD	ϕ 2.80 \pm 0.1mm
