

Caractéristiques de la gamme

- EQUINOX 165 25W 1975lm LUMI HCL TW SSC Blanc - Concord Equinox bouscule la façon d'appréhender le downlight en offrant une 3ème dimension à sa fonction d'éclairage avec une optique coulissante. Distribution Directe/indirecte avec réglage du diamètre de la partie indirecte. Technologie optique Quarkstar. Réglage de la position de l'optique par le dessous du luminaire. Finition blanc (RAL9016). IRC>90, UGR<19, SDCM<3. Flux lumineux : 1975lm, température de couleur de 2700-6500K. Gestion SylSmart SSC. Classe II. Durée de vie : 114.000h (...)

CIBSE TM66

Result				How to analyse the score	
Category	Points Scored	Maximum possible points	Assessment	Score Range	Performance Level
Product design	62.0	134.0	1.9	0.0 to 0.5	Very poor circular economy performance
Manufacturing	25.2	46.5	2.2	0.5 to 1.5	Some circular economy functionality
Materials	9.0	24.0	1.5	1.5 to 2.5	Definite/substantial progress to circularity
Ecosystem	20.0	43.0	1.9	2.5 to 4.0	Excellent circularity
Overall performance	116.2	247.5	1.88		

Technical Memorandum (TM) 66 describes a Circular Economy's main aims, how it can be achieved and what its practice will mean to the different branches of our industry like specifiers, manufacturers, contractors, and Facilities Managers.

The Circular Economy Assessment Method for Manufacturing (CEAM-Make)'s list of 66 searching questions, the majority of which ask for back-up evidence, is split into four sections :

- Product Design : Covering topics such as design for long life and repair
- Manufacturing : Additive and subtractive techniques and localisation
- Materials : Usage of recyclable materials rather than virgin
- Ecosystem : Repair or upgrade services to complement circular economy design

The outcome of the assessment is a single figure rating by which product comparisons can be made. A TM66 score demonstrates a product's performance in the context of a Circular Economy
